## Prescott Horse Sculpture Collection

*For Sale to support farmland preservation efforts in Morgan County, GA*

Fredrick Prescott's larger-than-life kinetic sculpture, with its captivating, multi-dimensional form, reveals the dichotomy between the real and the fantastical. As graphically bold and colorful as the pieces are, they look perfectly at ease in a natural setting, though there is no denying their otherworldly quality.

A collection of these sculptures is available through the Madison-Morgan Conservancy, thanks to a very generous donation to the organization by Patricia and Ben Carter in 2015. The collection currently includes five horse sculptures: two Papa Red Horses, two Mama Blue Horses, and one Yellow Colt.

Since 1974, Fredrick Prescott has exhibited his work all over the world and created special pieces on commission for both private and corporate collectors, including **Walt Disney Co., Porsche, Bulova,** and the **Chicago Bulls,** among others. Build your art collection with these now affordable pieces.

Buy one or buy them all – you will be supporting Georgia's first county-wide conservancy's efforts to protect special places for future generations.

**Please contact the Conservancy staff for more information.**
